

The Greek Legacy: What Will Be Your Legacy?

Program Facilitator:

Sam Centellas, Sigma Lambda Beta
Executive Director,
La Casa de Amistad, Inc.

Description:

We are all Greek because someone before us built a positive legacy. Over the years the legacy of Greek Life has had its ups and downs. So the question is, where are you taking Greek Life? Will your involvement in Greek Life leave it the same, worse than or better than when you joined?

Through a discussion of the issues attacking Greek Life we will look at how together we can accomplish many things... but only if we work together towards a common goal, like our founders did.

We will take a look at powerful stories of Greek Life's past and present... Stories of our founders who built the foundation... Stories of those who have nearly torn down our prestigious history... and the important question of... What will your Story be? What will your Legacy be?
