

Neos vs Old Heads

Program Facilitator:

Sam Centellas, Sigma Lambda Beta
OutSight Consulting

Description:

"You just crossed, you don't know anything"... says the Old Head to the Neo... well the "Old Heads always want it to be the way it was when they ran the chapter:, say the Neos.

Who fault is it that Neos don't know anything? Why do the Old Heads want to keep reliving the way things where when they crossed? Why do we spend more time arguing over the way things should be, instead of making them the way we ALL want them to be?

This retreat program is designed to uncover some of the hidden issues in our member education program, the way our chapters do strategic planning, and what our common and shared goals really are for our organizations. Groups will leave with a sense of understanding both sides of the argument, and more important having a plan how to take their chapter to the level... by working together.

AV Equipment:

None needed. Flip Charts.

Room Set-Up:

Flexible. Need to be able to move into groups, do some projects together and spread out.

Target Audience:

Program is targeted at NPHC/MGC organizations.
